

Market Safety!

Here is some of what we're doing to keep our community safe (updated 6/3/2020):

- 1. Distancing!** We will facilitate 6 ft distance between people at all times by spacing out our booths and marking 6 foot distances throughout the market with high visibility tape and chalk. Market staff will close the entrance to the market if it becomes too full and encourage customers to line up at pre-marked 6 ft distances.
- 2. PPE!** As essential service providers all CFAM staff, vendors, and volunteers will wear masks and gloves for the market. We ask customers to wear masks and sanitize or wash their hands. We are working to procure these supplies for all vendors but for now ask vendors to bring their own where they can and let us know when they cannot.
- 3. Reduce Contact!** We're asking vendors to set up their tables to facilitate distancing between customers, products, and other vendors. We also have market volunteers dedicated to sanitizing high touch points.
- 4. Limit cash!** We're encouraging use of check or credit card. Any screens or touch pads will be sanitized between uses. If possible, use exact change when using cash.
- 5. No sampling!** For now, consumers must take purchases home to enjoy. Consider giving out prepackaged samples for them to try at home and come back for
- 7. Communication!** CFAM and our host sites will communicate recommendations and changes to consumers. All signage at market will be readable from 6 ft to facilitate safe distancing
- 8. Online Pre-ordering!** We will offer online preordering near but separate to the physical market space to provide an option for immunocompromised people, increase vendors sales, and keep the market from overcrowding.
