

# Vendor Guidelines!

1. **Keep your distance--6 ft!** This includes with other vendors during loading and unloading. Do your best to stagger and respect others' space. Make any signage at your booth readable from 6 ft away.
2. **Wear a mask and gloves!** As essential service providers we must adhere to these guidelines. If possible, have one person at your booth to handle payments and one to handle products. If not possible, change gloves or sanitize after handling money.
3. **Reduce Contact!** Set up your table so that consumers cannot touch your offerings and encourage customers shop with their eyes, not their hands. Sanitize high-frequency touch points and have a space to load totes or pack everything in plastic bags. No cloth table cloths, only plastic or bare table for easy sanitization.
4. **Limit cash!** Encourage check or credit card. Please ask to sign for customers or have them use an "X". Sanitize any screens or touch pads between uses (using alcohol, bleach, or protecting surfaces with changeable saran wrap). Consider rounding prices to the nearest dollar and having a bucket for customers to place exact cash in to limit handling.
5. **No sampling onsite!** For now, consumers must take purchases home to enjoy. Consider giving out prepackaged samples for them to try at home and come back for
6. **Help remind customers!** of guidelines and remember we're all doing our best!

**Thank you Vendors!!** for your patience and support as we strive to create a safe market experience! **Keep up with the latest updates on our Facebook page or website** [www.farmandartmarket.com](http://www.farmandartmarket.com) (this document updated 6/3/2020)
